

Progrexion Joins Utah's Fight Against Hunger

What is hunger? To some, it's a rumbling stomach or a minor inconvenience. To others, it's a matter of life and death. Rise Against Hunger is an international organization dedicated to ending the hunger epidemic by the year 2030. As ambitious as this goal may sound, it is equally possible if the world can come together and mobilize the necessary resources—everyone, everywhere.

Last month, Progrexion, a local company that enables American consumers to repair their credit, joined the fight against hunger. Across nine locations, including call centers and corporate offices, Progrexion assembled 90,000 meals to help feed those in need. You too can make a difference in the fight against hunger, by visiting RiseAgainstHunger.org and donating your time or money.

As for Progrexion, this trend of giving is one that's going to stick. Progrexion is a growing (and caring) company that seeks to better not only the lives of its employees, but the lives of all those in need. At the core of Progrexion's values is the belief that everyone deserves access to the tools of success. While that certainly includes food, it also extends to where you work. If you're interested in starting a career at a company that rewards hard work and a helpful attitude, head online to www.progrexion.com/careers or text **CAREERS** to **444222**.
